

PHOTOLUMINESCENT 310 PAINT SYSTEMS

310 Paint System, Code: 310KIT5

Jalite 310 photoluminescent paint system is a user friendly, effective means to identify elements of a safety way guidance system. A full acrylic water based paint system which can achieve ISO 17398:2004 B-Class luminance performance. Comprising of a white base component, photoluminescent component and protection component. 5kg kit gives a typical coverage of 6.3m²

Application:

Easy brush application can be applied to common construction materials lending to a variety of possible safety way guidance system arrangements. A water based system so clean up is easy, just rinse in clean water.

Typical Application Areas:

Light pedestrian traffic walkways, low location lighting staircases / door architraves.

PHOTOLUMINESCENT SFE PAINT SYSTEMS

SFE Paint System, Code: SFEKIT5

Jalite SFE System is a professional coating system which has been developed to provide effective photoluminescent and protective properties to concrete, steel and other common substrates where the identification / awareness of constructional components is required. A high build heavy duty 2 Part / 2 Pack Solvent free epoxy photoluminescent paint system which can achieve ISO 17398: 2004 C-Class luminance performance. White base component, photoluminescent component and tool cleaner. 5kg kit gives a typical coverage of 7m².

Application:

Ideally suited to experienced epoxy users, pre weighed amounts of each component are mixed and then applied in the desired application area, we recommend brush application. Tools can be cleaned with the supplied tool clean product. Due to the high build nature this product is not suitable to be applied to vertical surfaces.

Typical Application Areas:

Heavy pedestrian traffic walkways, light industrial usage areas, stair nosings etc.

PHOTOLUMINESCENT STAIRNOSING

Raked-back

Straight-back

Code: **SNAL(R)** Pack of 15 x 1.3m lengths of Raked-back stairnosing.

Code: **SNAL(S)** Pack of 15 x 1.3m lengths of Straight-back stairnosing.

Each kit comes with our easy to follow installation guide.

STAIR TREAD ILLUMINATION MARKERS

Engineered by JALITE to clearly identify the edge of steps in the dark. Available in rigid pvc, stair tread markers come with a self adhesive backing for easy application.

Code: US978

This kit provides sufficient coverage for 24 stair treads with rigid pvc markers.

PHOTOLUMINESCENT FLOOR DISC MARKERS

Complements existing way guidance systems. Suitable for concrete or vinyl flooring and comes with self adhesive backing.

Code: TMG008

Code: TMP008

Available in packs of 10.

Also available in Aluminium

Code: ALTMG009

Code: ALTMP009

Available in packs of 10.
